

## Box Trailer with Ramp Doors

Built for transporting bulky/heavy loads with ease.

With parallel side walls and no wheel arch intrusions, the large space inside these trailers make it the perfect choice for your project.

The trailer has a carrying capacity recorded at a spacious 14.38m<sup>3</sup> with a tapered front. The innovative ramp doors, with enhanced profile, allows small wheeled trolleys to wheel up and down with very little resistance.

### Specification

Make & model may be subject to change.

|                                   |              |
|-----------------------------------|--------------|
| Overall Length                    | 5.35m        |
| Overall Width                     | 2.3m         |
| Overall Height                    | 2.6m         |
| Loading Height                    | 0.38m        |
| Inside Length (to start of taper) | 3.6m         |
| Inside WxH                        | 1.73 x 2.14m |
| Gross Weight                      | 3500kg       |

### Features include

#### Cargo Rails

Featuring four cargo rails (two each side), running the full length of the side panels, with closely-spaced fixing points to accept the shoring poles/cargo straps.

#### Innovative Ramp Doors

The factory fitted spring-assisted ramp operates normally but can also be opened as doors to allow forklift access, making it ideal for loading pallets etc.

#### Easy Access

The lockable front access door allows convenient access to the cargo. Additionally, the ramp doors allows flexible access for you to walk, wheel or drive in your load.

#### Inside Details

The ply platform floors feature an embossed grip pattern on the upper surface, and the interior light provides illumination in the dark.
